Comment: Commander Peel shares his sire with industry greats such as Salvador (SCI 605) and Odysseus (SCI 634) and here we have matched him to Achilles who has left us some stunning progeny here at Foveran. Please note that one of our most heritable trophy dams 6/01 is on the bottom line of this pedigree—a Lewis daughter closely related to Prince Philip's dam. She can trace her lineage back to Russell (sire of Herbrand). Just imagine what the stag progeny from this young hind will be like!

Comment: Prince Philip is outstanding this year at 544SCI at just 5yrs. We expect that he will be one of the all time greats at maturity. We know his genetics are very heritable as he is a full brother to Alan Stewart's Foveaux. We thought his high scoring antler would be well matched to the Chancellor Peel line through Samson, and with Clive on the bottom line to ensure heavy beamed antler the progeny of this young hind will impress.

Comment: Commander Peel shares his sire with a number of industry greats including Salvador (SCI 605) and Odysseus (SCI 634). His credentials are further enhanced by Adonis as his dam's sire. The heritability of this line for producing high scoring antlers is well matched with one of our most heritable sires for this, Mountbatten (sire of Prince Philip SCI 544 @ 5yr and also Alan Stewart's Foveaux). We look forward to seeing the progeny from this young hind.

Comment: Mountbatten, sire of Prince Philip (SCI 544 @ 5yrs) over Henry James, sire of Henry VIII (HA 15.98kg SCI 509 @ 5yrs). Exceptional heritability for this young hind to pass on to her progeny! Great dual purpose genetics too with Mountbatten being one of our most heritable sires for high scoring trophy antler and Henry James has a reputation for leaving heavy beamed antler.

Comment: This pedigree is all about antler style. Long strong and wide antler with the "wow" factor are a feature of this pedigree. Not only with Amadeus himself, who we know passes this on and Sebastian, our new master sire and 2yr son of Amadeus, is a good example of this. Salvador and his very heritable sire, Chancellor Peel (also sire of Samson & Odysseus (SCI 634)), along with Maximillian on the bottom line all have this style of antler.

Comment: We are very impressed with Henry VIII's progress to date. At 15.98kg HA and SCI 509 at just 5yrs, he is becoming an impressive sire stag in his own right. He is ideal for producing heavy beamed antlers in his progeny, a trait his sire Henry James is well known for. Mountbatten (sire of Prince Philip SCI 544 @ 5yrs) on the bottom side of the pedigree is one of our most heritable sires, and will surely enhance the trophy potential in these genetics as well.

Comment: Munich's hugely heavy beamed antler at 16.75kg Supreme over the wide and long well structured heritable antler of Amadeus will surely produce some exciting results in the progeny of this young hind. Add to that a double dose of Amadeus' dam 500 and Wredeson's dam 120 and the heritability factor goes up 10 fold from the bottom side of this pedigree. Don't underestimate the power of dam 3728—we have seen a number of terrific spikers from this dam by ET who have cast and grown exceptional second heads this year.

Comment: For Schulte Wrede antler genetics, you can't go past this mix of Image over a Wredeson sister for heritability. Image is passing on some exceptional antler genetics to his spikers and we look forward to seeing the results in his 2yr sons this year. We expect them to be very impressive. The Wrede/ Wredeson line prior to the introduction of Image was probably our most heritable line and so the mix of these two in this young hind will make for some exciting progeny.

Sale Day Wt:

Comment: Please pay attention to this young hind. There is a lot of very heritable Schulte Wrede genetics here. Image is consistently throwing very impressive spiker heads. Many of those from our ET programme, and especially full brothers to this young hind from the previous year, put up stunning 2nd heads that we were very proud of. Dam 3728 comes from very heritable stock with both Amadeus' dam and Wredeson's dam in her pedigree. We have had the chance to see what this mix can do and would strongly recommend this young hind to you.

Comment: You will have seen some exceptional Amadeus/ Achilles spikers on display at previous sales and the impressive results from this mix encouraged us to combine these two great sires again. This embryo is possibly even better bred than we have done in the past with National 2yr HA Champ, Warlord, and the very heritable Awesome (sire of Shock'nor, Awesome Too and Moccona) on the bottom line. Exceptional trophy genetics and marked as a star lot with good reason.

Embryo

Chancellor Peel

Comment: Prince Philip's antler style, with very long bottom tynes and multi pointed long tops, is ideally suited to Chancellor Peel's. There is exceptional heritability from both sides of the pedigree. Prince Philip is a full brother to Alan Stewart's Foveaux purchased at our 2007 stag sale. And Chancellor Peel is the sire of Odysseus (SCI 634) and Salvador (SCI 605) and so we know these high scoring antler styles will be passed on to the progeny of this mix.

Embryo

Comment: This embryo will be stunning. National 3yr HA Champ at SCI 531 at just 3yrs of age over last years 2yr National HA Champ, Discombe. Could you get a more impressive and top performing mix. Heritability is assured by both lines as well going back to Jamieson (sire of Chancellor Peel and Scipio) and Achilles on the bottom line (Sire of Discombe, Holy Oak and Apollo). Remember these three Achilles sons were all placed in the top 5 in last yrs 3yr HA Comp.

Comment: Amadeus becomes more and more impressive as he matures. He has all the attributes, you would look for in a sire stag—bodyweight and antler with the “wow” factor. What better match for him than Shock'nor. He is hugely heavy at 310kg at just 3yrs and his wide antler style with strong bottom tynes and tops was rewarded People's Choice in the 2008 Rising Stars Competition. Just imagine if this is a stag!

Comment: We are very fortunate to be able to use Metallica in our ET programme this year over a select few hinds. We are not offering many of these embryos and have been careful to choose hinds worthy of his mating. Lancaster has hugely long lower tynes and impressive tops and down to Warlord, we know the dam in this mix has some great antler genetics to match to this high scoring sire.

*** AWESOME LINE UP OF MAGNIFICENT SIRES ***

Comment: Woody was placed a very close 2nd in this year's National 3yr HA competition. He is one of only a handful of sires to break 500 SCI at just 3yrs old. We felt with these credentials that he would be worthy of a mating to Warlord, National 2yr HA Champ with high scoring heavyweight Motdonis on the bottom line to promote beam thickness for velvet and trophy antler. Industry leader Herbrand at a record 646 SCI cements this as totally leading genetics.

FRZ 168/92

Comment: Woody, a close 2nd at this year's National 3yr HA competition (just 4 inches in it!) impressed us with his 500+ score at just 3yrs and would have to make him the second highest scoring 3yr old of all time. Over 2yr HA Champ, Commander Peel, this mix comes with great credentials. Exceptional heritability in the bottom line with Chancellor Peel (sire of Odysseus SCI 634 and Salvador SCI 605) to complete the mix. Industry leader Herbrand at a record 646 SCI cements this as totally leading genetics.

Comment: Huneric was the National 2yr HA Champ last year and is one of only a few sires to make over 500 SCI at just 3years of age. Here we have matched him to Holy Oak, National 3yr HA Champ in 2009 and believe the result of these two high achievers will impress.

Comment: At just 5yrs, Konrad ranks as one of our heaviest sires for both bodyweight and antler. He has an impressive long and wide heavy antler and at SCI 507 is a great match for Hannibal. Hannibal genetics are very heritable—he shares his sire with Motdonis and of course with Adonis on his dam side, this heritability will flow through. Note Mr Peel (full brother to Chancellor Peel) means that Jamieson is on both sides of the pedigree which will cement these top Furzeland genetics into this mix.

Embryo

Comment: Prince Philip continues to impress us as he matures. His head this year was very impressive and confirms the value of these Mountbatten/ Lewis mixes that work so well in our herd. A worthy match for the former SCI World Record and super heavy weight antler of Charlie Mac which introduces Lewis on the bottom side as well. Henry James reputation for heavy beamed antler will ensure great dual purpose genetics from this mix for both velvet and trophy antler.

Comment: Apollo is a full brother to Discombe (2yr National HA Champ 2008) and Holy Oak (3yr National HA Champ 2009) and so comes highly recommended. These three sires were placed in the top 5 of the National 3yr HA Comp last year and proves the heritability of this line. Here we have matched him to Warlord, another former 2yr HA Champ and with Heathrow (3x National velvet Champ) on the bottom line, this must guarantee an excellent result.

SAME BREEDING AS SEBASTIAN

Comment: This is the same genetic combination that resulted in our new master sire Sebastian (209kg @ 2yr, HA 8.4kg stripped) with a very similar antler architecture to that of Amadeus. The result is an impressive new master sire and bodes well for the progeny of this mating. Don't let this opportunity pass!

Comment: You can see by his photo that Sebastian has an uncanny resemblance to his sire Amadeus in antler style and at 209kg at just 2 years, he is shaping up to be a 300kg+ sire stag as well. Certainly worthy of a select mating in our ET programme and this well bred Image daughter makes a perfect choice. Image's consistency in producing impressive spikers this year makes him one of our top performing sires. Be among the first to secure these valuable new genetics.

Comment: We couldn't think of a better bred Warnham hind in our herd than this one. Mountbatten over the great William John brings together these two exceptionally high scoring trophy style antlers. A worthy mate for Henry VIII who is an impressive sire in his own right. We know his genetics are very heritable being a son of Henry James. Consistent and stable Warnham genetics here well worth considering.

Comment: This pedigree is specifically designed for long wide heavy and high scoring antlers. Hannibal is the sire of Zama, winner of the National 3yr velvet competition. Mr Peel full brother of Chancellor Peel also shares his sire with Scipio (SCI 500 @ 4yrs). Konrad at 313kg and SCI 507 at just 5 yrs is impressive and can only add to this mix. He is a big bodied sire and hugely long strong and wide antlers also.

Comment: Motdonis over Adonis puts Adonis on both sides of this pedigree. He is so very heritable that this must come through in this progeny. Remember that Adonis appears in a number of pedigrees of Industry greats—not only Motdonis, but Hannibal, Commander Peel, Warlord, Huneric, Metallica, Odysseus and so the list goes on. As this isn't enough we have mated her to Pegasus who shares his sire with other great sires such as Shock'nor, Awesome Too, and Moccona. Exceptional heritability.

Comment: It is worth remembering, when looking at this hinds pedigree, that it was a Motsumi/ Adonis mix that also produced Hannibal and Motdonis. Top line showing the mating of this hind is also very heritable with Chancellor Peel (sire of Commander Peel and Odysseus SCI 634) and Jamieson (sire of Mr Peel and Scipio SCI 500 @ 4yrs). Impressive progeny will be the result.

Comment: When we purchased Henry VIII as a 3yr old he was really impressive and we thought the best three year old offered at the sales that year. We have continued to be impressed with his performance and he is shaping up to being a stunning sire. We mate him to some of our best Warnham hinds including this Mountbatten daughter. We know these very heritable Warnham genetics will perform well.

Comment: Grand sire Jamieson is also the sire of Chancellor Peel and Odysseus and this heritability will flow on in the progeny of this hind. Brusnik was taken as a trophy at just 6yrs and 3 x National Velvet Champ Heathrow in the bottom line should not be overlooked. Mating this hind to Konrad, an impressive sire in his own right, also introduces Chancellor Peel's heritability to the mix. We look forward to the result.

Comment: Mountbatten over Lewis needs no introduction. We have had much success from combining these two great sires—Prince Philip and Foveaux are good examples of this. Here we have used our high indexed and top performing trophy dam 6/01. An excellent choice for Pegasus who brings together the house of Awesome (sire of Shock'nor, Awesome Too and Moccona) with that of Chancellor Peel (sire of Odysseus and Commander Peel) for strong heritability.

Comment: It is worth remembering that our new sire Sebastian (2yr 209kg HA 8.4kg stripped) was the result of an Amadeus/ Red Baron/ Wredeson combination. These are the heavyweights of our Schulte Wrede German herd for both bodyweight and antler which augurs well for the progeny from this mating.
