Conditions of Sale

Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 12noon.

DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding). All stock sold are DNA guaranteed.

Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

Vetted In-Calf Hinds

All adult hinds have been ultrasound pregnancy tested using a real time ultrasound scanner. Only confirmed pregnant hinds have been included in the sale. All testing was carried out by Dr Noel Beatson from Rural Vet Services, Timaru.

TB Status

Our herd status continues to be a C10 classification.

Johnes tested

All sale deer have been Johnes tested clear.

Conditions of Sale

The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Conditions of Sale cont.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.

The sale is conducted exclusive of GST.

A buyers commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of the respective stud.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

Foreword

Dear Clients and Friends,

Welcome to our 28th Annual Elite Hind and Weaner Sale.

We are extremely proud of the offering in this year's sale. This year our breeding programme features an impressive line up of sires which include industry greats and many rising stars. As you will see we have used Mentor, the current 2yr HA Champ at the rising stars competition with his record breaking 435 IOA at 2 yrs. Also Morpheus, Huneric and Woody who were 3 of the top 4 placed 3 year olds in the National 3yr HA Competition last year, and we have also included the current NZ Velvet Champ for the last few years, Austin.

We have also used Metallica, our new stag purchased from Peter Adlan, in our breeding programme for the second year. He was scored at 679 IOA last year and we are confident that this coming year he will have a record breaking score yet again. We are also very pleased with the progress of our other master sires. Amadeus at 605 IOA at just 6yrs, Prince Philip 625 IOA at 6yrs, Henry VIII 619 IOA at 6yrs, Fov Windsor at 535 IOA at 4yrs are truly impressive and compliment the line up of sires in this years breeding programme.

We are confident that this offering will include a number of future industry greats and also new world records for the trophy industry. In our breeding programme we have focused on high scoring trophy antlers and any sires used have had to meet our stringent criteria for this trait. In addition we have also needed to concentrate on heavy beamed antlers to cater for the growing European market of trophy hunters, which also works well for velvet weights.

We also focus on heavy liveweights at weaner, 1yr and 2yr weighings with good constitution and high potency: we never compromise on temperament.

This catalogue also includes a number of well bred hinds mated to our top sires. They are offered in group lots at the end of our catalogue. They are mated to the same sires we use to mate our elite stud hinds and are also used in our ET programme. These hinds are all ex stud hinds and are being offered to make way for our new crop of weaners this year as we have reached our maximum carrying capacity. The progeny from these hinds we know will produce exceptional antler genetics worthy of inclusion in any herd. A supplementary catalogue showing their full pedigrees will be available on our website and can also be posted to you on request.

Our motto continues to be "Breeding the Difference" and so we hope you will see genetic combinations available in this catalogue that are not found elsewhere. It is our pleasure to share these hot new genetics with you and we wish you well with your purchases. We also look forward to hearing back from you regarding their progress.

FOVERAN DEER PARK

Mission Statement

Our motto **Breeding the difference**

a term that best describes our intention for our deer stud at Foveran.

By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.

DBVs Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

Velvet By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

Trophy The fastest growing component of our deer industry at present. Foveran's commitment is to supply high end trophies for ourselves, but also to supply elite trophy genetics out into the deer farming community. Our continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long tyned heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

Temperament We continually manage and evaluate the herd for this important trait.

Background History

Glaadt Park Herd

Our commitment to the deer industry started way back in the early 1980s with the introduction of an Elk herd. Alongside that we imported the famed Schulte Wrede herd from Glaadt Park, Germany. This herd was made up of the top bloodlines throughout Germany and concentrated on Glaadt Park.

The balance of the Glaadt Park herd was eventually purchased, and after farming them in England for a short time we then imported them into New Zealand. The herd was culled, dissected and managed for two main genetic traits—antler formation and body weight. Some of the earlier stag weights were enormous with stags in the 300-350kg range. Antler formation was similar to the style and conformation of their forebears.

Since the herd arrived in New Zealand performance has improved and with the same breed influences of Red Baron, Myson, Munich and Image, an accelerated effect is becoming prevalent. To date our top line weaner stags are topping 90+kg at the end of March and our weaner hinds at 83+kg at the same time. Antler performance is also showing through with 8-12kg Hard Horn heads at 2 years old becoming the norm.

One of our top performing master sires Wredeson Major, a direct descendant from Wrede, is a perfect example of our genetic improvement. He weighed in at 303kg at 3 years with a 40 point, 10.2kg head at 405 IOA. That body weight would rate as one of the heaviest 3 year red deer weights anywhere in the world. The important point here though, is this stag has all three traits: record live weight, huge antler and superb temperament.

On top of that we produced the following year "Amadeus", an amazing animal with the biggest antler structure for a 2 year old the world has ever seen, clocking in at an incredible IOA score of 427, bodyweight of 218kg and a record 10.43kg HA. They are certainly powerful and heritable genetics.

We expect with continual management using DNA and hind indexing, that this herd will continue to grow and show that this is an exceptional herd of deer.

Background History

Warnham/Woburn Herds

The two main strains of English deer that make up our herd at Foveran are from Warnham and Woburn bloodlines.

The Warnham herd, owned by the Lucas family, has had a strong influence in the deer introduced into New Zealand. For instance the Poulter herd, introduced in the early 1900s at the Waimakariri, consistently grew big palmated multi-point heads and latterly introduced into New Zealand for farming in the late 1980s. They have proven themselves time and time again with record heads and velvet weights. An example would be William John, unquestionably one of the best Warnhams ever produced, with a record antler of 532 IOA at 5 years with 68.5" outside spread. And then the next year he had a huge head of 19.2kg Hard Horn and 552 IOA est. On top of that is Mountbatten (Hercules x Duncan, Sire of Prince Philip). One of the most highly regarded Warnham stags in the country and of course "Sovereign."

The Woburn Abbey herd has also influenced our subsequent deer herds around New Zealand with genetics such as Russell, Harvey, Kane, Hector, Bradford, Lord T and Berry End; and others too numerous to mention but equally important. Hector last year scored 623 IOA which firmly cements him as one of the leading trophy sires in the industry.

The crossing of the lines over traditional German and Eastern bases have left new antler records all over the country. The importance of these English introductions to our now famed German herds cements this. Their multi-point antlers are very heritable and show what a strong genetic strain of deer they are.

4	292kg	13.36kg HA	488 7/8
5	308kg	15.3kg HA	560 5/8
6	318kg	15.5kg HA stripped	604 7/8

COMMENT: Amadeus, truly the most amazing 2 year stag ever produced. His record breaking huge wide expansive, heavy beamed head of 31 points and 427 IOA, with a huge bodyweight of 260kg at just 3 years is unbelievable. His exceptional 6 year antler takes pride of place in our trophy room. At 604 IOA he really does have the "wow" factor. The Wrede bloodlines are proven with such sires as Wredeson, Wredeson II, Wredeson Major, and now Amadeus. Proven genetics!! Amadeus is now producing some of our best younger stags including Sebastian.

COMMENT: We are very excited about this new addition to our German herd with his hugely thick impressive beamed velvet. Image will not only produce great velvet stags but also thick heavy beamed antler which is highly sought after by European hunters. Image was third in the South Canterbury Maiden competition. A very attractive trophy head at 551 IOA and again the antler weight cut in July is considerably less than what it would have been pre rut. Image produces some of our best spiker antlers.

Munich

7		525 IOA
8	16.75kg Supreme Velvet	
9	13.2kg HA cut July	563 5/8
10	Still on head	521

COMMENT:

Top credentials at 16.75kg supreme velvet at 8 years. Again the thickness of beam will promote thick heavy antler which is highly sought after by European hunters. We grew his head out last year and he scored a massive 563 5/8 IOA. His antlers remained on his head until July before cutting 13.2kg HA. This weight is considerably less than what they would have been if cut pre rut as with our other sires.

COMMENT: An exciting new addition to our Schulte Wrede herd. Sebastian excelled in both bodyweight and antler as a 2yr old with an impressive 2yr bodyweight of 209kg and an antler structure very similar to Amadeus. Unfortunately Sebastian got tangled in wire this year just as his royal tynes were developing and his antlers looked truly impressive. The wire broke his main beam above the trey on one side and although we had removed the wire, the antlers stopped growing and we had to eventually remove his antlers which were drying off. Consequently we have no antler stats and his bodyweight was also affected. We included him in our breeding programme this year as we value his genetic contribution and hope that he fully recovers this coming velvet season.

5	242kg	13.67kg HA	544 2/8
6	243kg	16.4kg HA stripped	625 5/8

COMMENT: We are very excited about Prince Philip's progress to date. His breeding is impeccable – a Mountbatten/Lewis combination that produced our 30 point spiker and also Lot 51 at our 2007 stag sale sold to Alan Stewart for \$35,000 with 9.75 HH as cut after the sale. Prince Philip broke his jaw as a 2yr old and we would like to acknowledge Noel Beatson for his part in his speedy recovery. At 625 IOA at just 6yrs, this is an impressive sire. His young stag progeny have consistently shown great spikes and antler.

5	253kg	HA 15.98kg	509 1/8
6	253kg	HA 18.6kg	619

COMMENT: Purchased from Westbush Deer Stud, Henry VIII is a son of our own Henry James. He has an impressive heavy set of antlers typical of many of Henry James' sons. At 18.6kg of stripped Hard Antler, he grew one of our heaviest antlers this year. He was the most impressive 3 year old sire offered for sale that year. We were so impressed with him we couldn't resist purchasing these genetics back for our own herd. He is a major player in our breeding programme and at 619 IOA at just 6yrs, the offering in this catalogue represents a great opportunity to secure some progeny from this future industry great.

9	603 4/8

COMMENT: Hector, a full brother of Kane—purchased for \$100,000 off Sarnia Park, has very good heritability anchored against very solid genetics in his background i.e. Harvey and the famous Woburn 80. His massive multi point head of 535 IOA at just 5 years was awesome. He is used extensively over our Germans to enhance trophy genetics within our herd. His 57 point head remains impressive. This year he has developed hugely strong outrigger tines with the remainder of the antler structure intact and so we look forward with interest to see what happens next! An impressive Woburn sire.

7	253kg	13.56kg	531
8	246kg	13.36kg	517

COMMENT: Purchased from Stanfield Park for \$95,000. Sadly we lost Mountbatten during the rut last year. By a stroke of luck he served his donor hinds and so his legacy will continue in our herd for some time yet. He was a magnificent sire in his own right and one of the most heritable to date.

His heritable antler factor is second to none with many huge spiker and 2 year heads in our herd. Another 2 year son has an incredible antler weight of 11.86kg with 371 IOA score. A new record for antler weight for age, breaking the previous record by over 2.2kg. Also sire of our master sire Prince Philip.

8	282kg	37pts	542

COMMENT: Purchased at Stanfield in 2002 for \$74,000. He has to be rated the best Warnham ever produced with his huge wide head of 19.2kg antler scoring an est. 552 IOA at 6 years. We have some excellent sons—both Pure English and English German cross coming through with huge antler specs. One of his spikers has an enormous rack at 31 points with thick heavy mass. Another 2 year son features with Deer Genetics called JRDG, crossed with Adonis. A huge beautifully correct head of antler. His outside span is 68.5 inches and must also be close to a record in the industry. His huge mansion of antler has what we term the "wow" factor and this is becoming increasingly important in the trophy industry, a prerequisite for the discerning hunter.

4	256kg	HA 13.06kg	457 5/8
5	273kg	HA 14kg stripped	502

COMMENT: Apollo has been strategically bred for big royals on a wide spread, with good body and temperament and we have got the lot! An exceptional trophy mix in his pedigree. Also interesting to note that grand dam 1003's brother 'Little Rock' had an IOA score slightly ahead of Salvador at 2 years. Great grand dam 3068 is the mega dam at Pelorus Deer stud for trophy genetics. 5th in the 2009 rising stars HA competition, and with 2 other full brothers in the Top 5, this confirms the heritability we can expect from this rising star. Apollo is impressive this year with his best head yet.

4	266kg	HA 14.4kg	535 1/8

COMMENT: Fov Windsor's pedigree impressed us. Of our 3 Warlord sons, this is the most impressive trophy pedigree. Warlord at 573 at just 5 years is an impressive sire who has the "wow" factor for trophy hunters. Add this over Awesome at 520IOA at just 4 yrs with Heathrow in the background and we have a genetically proven safari pedigree. This year Fov Windsor is starting to display all the antler structure of his sire Warlord. We expect this young stag to mature into an impressive master sire. Matings and progeny of Fov Windsor are offered in this sale and we are pleased to report his sons feature amongst some of our best spiker heads. An impressive performance that we hope to repeat in future breeding programmes.

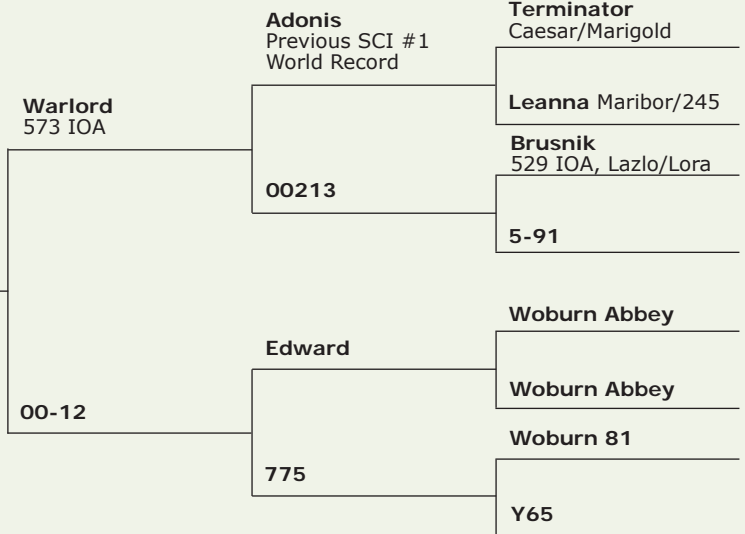

Midas

4	256kg	HA 11.8kg	454

COMMENT: Foveran General was bred at Foveran. We wanted to mix the high scoring Awesome antlers at 520 IOA at just 4yrs with Warlords at 573 IOA at just 5yrs and thought that Wredeson's heritability could only add to the mix. At 454 IOA at just 4yrs and with strong brow bey and treys, tops in a similar style to Warlord's antler structure and with an inside span of 32 1/2 (the same as Prince Philip), this makes for an impressive antler structure. Hinds mated to this young stag will be worth considering.

5		559
6	48inch	559
9		562

COMMENT: We purchased Spartacus last year from Peter Adlam and have negotiated to use him over hinds this year. This is the first time we have offered any hinds mated to this sire and we look forward to the results. With his stunning heavy trophy antler with a main beam length of 48" and inside span of 34 4/8 and long tops, we think he has a lot to offer in our breeding programme. We encourage you to consider the hinds in this catalogue mated to him as we believe the results will be stunning.

4YR HEAD**

Age	Antler	IOA
2	17x18pts	380
3	23x18pts	531
4	26x23pts	603

COMMENT: An outstanding Scipio son. An incredible 35 points at 2yrs and a record breaking 531 IOA at 3yrs with 41 points. Winner National 3yr HA competition 2010 and now the biggest 4yr head in the World! With no Scipio semen available now in New Zealand, these are valuable trophy genetics to secure.

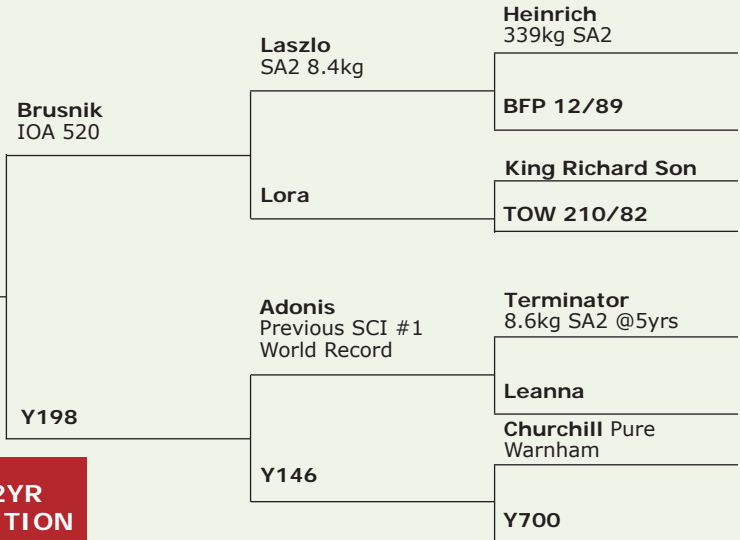

Huneric DG

4 Year Son of Brusnik (owned by Deer Genetics)

Huneric DG

Huneric DG

**WINNER 2YR
HA COMPETITION**

Age	Antler	IOA
2	15x14pts	405
3	16x14pts	501
4	16x19pts	570

COMMENT: Winner of national 2yr HA Competition 2009. His 2yr score of 405 with external spread of 40 inches and 10 inch burrs is impressive. 4th in the National 3yr HA Comp 2010 with an outstanding 3yr score of 501 IOA. Currently the 3rd largest 4yr head in the World.

Discombe

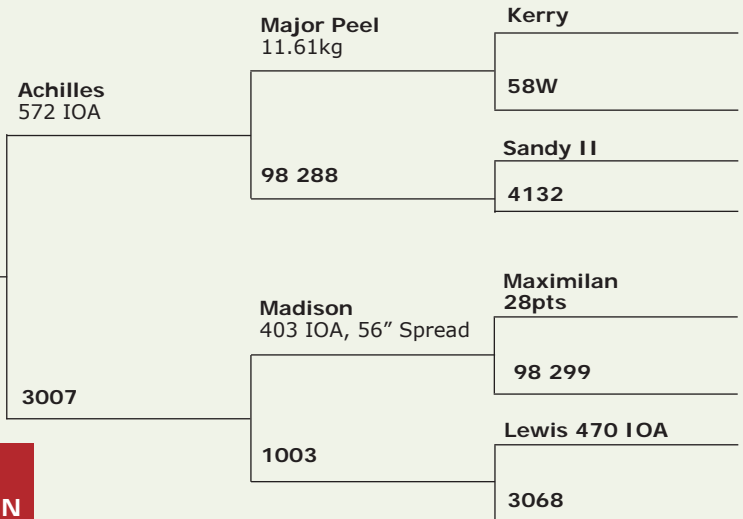

5 Year Son of Achilles (owned by Tower Farms)

Photo taken at 4 years

Discombe

Discombe

**WINNER 2YR
HA COMPETITION**

Age	Liveweight	IOA
2	201kg	403 2/8
3		468 4/8
4		519 1/8

COMMENT: Discombe was 2yr national Hard Antler Champion in 2008 and 3rd in the 3yr section of the rising stars competition in 2009. His beautifully wide antlers and long clean tops make him the ideal trophy sire. He is a full brother to Apollo and Tower Farm's Holy Oak and so we know he is very heritable. Some of his daughters have progeny in this sale.

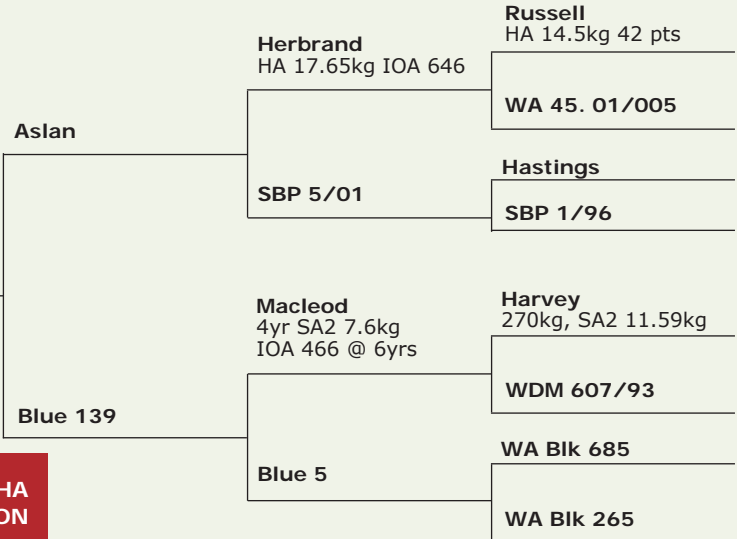

Woody

3 Year Pure Woburn (owned by Gary Fowler)

Woody

Woody

**2ND NATIONAL HA
3YR COMPETITION**

COMMENT: Woody was placed 2nd in the 3yr HA Competition 2010 with a score just 4 6/8 behind record breaking Morpheus. Grandson of record breaking Herbrand we believe this stag will be one to watch as he matures.

7	248kg	15.5kg HA	546
8		16.36kg	580
9		17.3kg	581

COMMENT: We are pleased to be able to have some semen from this wonderful stag owned by Graham Carr's Peel Forest Estate. He is, as Graham points out, an industry legend leaving a huge legacy with stags such as Salvador 605 IOA, and Raroa's Chance to note a couple. We have matched him over a small number of special elite hinds at Foveran, leaving some exciting tidy multi point spikers. His addition of trophy genetics to our herd will be invaluable in the years ahead.

Sire Of Mentor DG (owned by Malcolm Cane)

Odysseus

Odysseus

Age	IOA
2	355
3	461
4	484
5	529
6	603
7	638

COMMENT: Impeccable breeding with Chancellor Peel as his sire. It is worth noting that Chancellor Peel is also the sire of Salvador (IOA 575 @ 5yrs) and Commander Peel (IOA 429 @ 3yrs) confirming the heritability of this line for high scoring long typed antler highly sought after by the trophy industry. With a main beam of 40 & 42 inches and a span of 29 inches and 40 points, Odysseus is the ideal trophy sire. We have used him this year in our ET programme and we look forward to the results from this proven master sire.

**WINNER NATIONAL
2YR HA COMPETITION**

COMMENT: An impressive pedigree with Chancellor Peel/ Jamieson and Adonis. Chancellor Peel is also the sire of Salvador (IOA 575 @ 5yrs) and Odysseus (IOA 603 @ 6yrs) which confirms the heritability of this mix. It is also worth noting that the Jamieson/ Adonis mix has produced Scipio (IOA 500 @ 4yrs). Impressive statistics and Commander Peel is an impressive stag himself at IOA 429 at just 3yrs with a very large beam and long in the top tynes. Perfect for producing top scoring trophy animals for the future. Winner of 2yr HA competition.

4	468
5	503
6	509
7	552

COMMENT: Broadband is a magnificent Pure Furzeland Chancellor Peel son. His span at 7yrs of 34" and spread of 62" are particularly wide for a Furzeland stag making him a great option if you want to increase width in your herd. His multi pointed open tops score very well, and he has a fantastic quiet temperament.

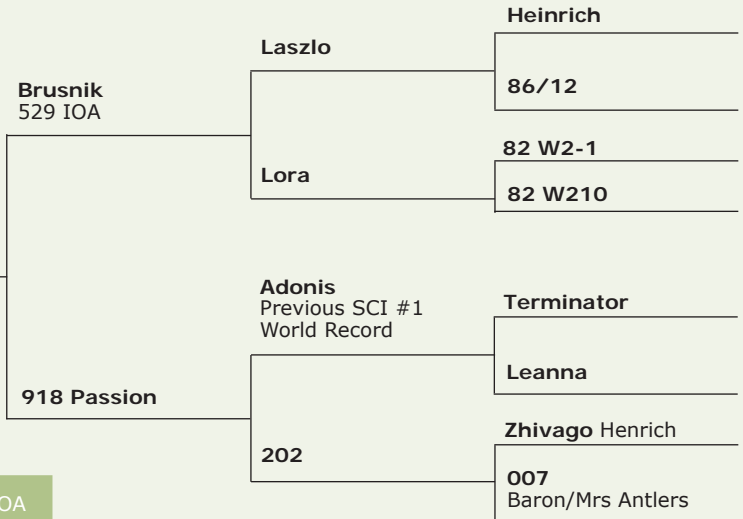

Zidarn

National HA Champ 2009 (owned by Tower Farms)

Zidarn

Zidarn

Age	Antler	IOA
3	HA 7.56kg	
4		495 3/8
5		548 2/8
6		653 2/8

COMMENT: We were so impressed with the length and spread of Zidarn's antlers that won the National HA competition at 653 2/8 IOA that we just had to include him somehow in our breeding programme. With no semen available we did the next best thing and have purchased some of his daughters and we are offering their embryos in this sale. This is a first time offering for us and we are very excited about the resultant progeny.

Scipio

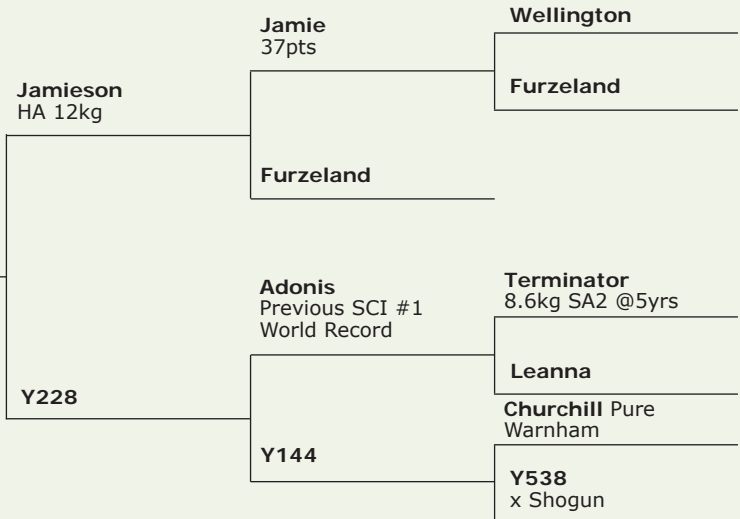

Sire of Morpheus DG

Scipio

Photo taken at 5 years

Scipio

Age	Antler	IOA
1	7x6pts	
2	19x16pts	369
3	15x14pts	445
4		500

COMMENT: With no more Scipio semen available, progeny in this sale will be highly sought after. His antler structure has open long tops and strong long bottom tynes, and he has a spectacular high scoring trophy antler at a young age. Tyne placement is excellent for those looking for velvet as well.

Kingswood

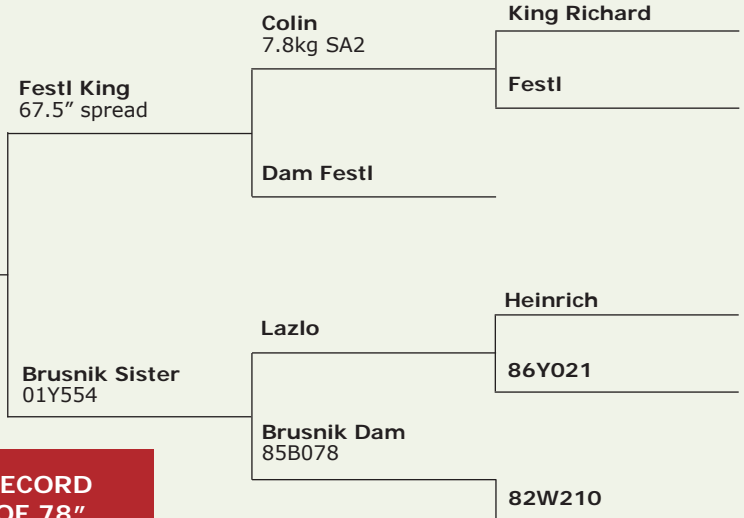

World Record Spread 78" (owned by Dave Mackie)

Photo taken at 6 years

Kingswood

Kingswood

**WORLD RECORD
SPREAD OF 78"**

Age	Antler	IOA
5	HA 13.4kg 72" Spread	503
6	HA 14kg 78" Spread	480

COMMENT: The decision to include Kingswood in our breeding programme was due to his massive world record 78" spread. We felt it would compliment Amadeus' antler structure and also encourage spread in some of our other mixes as well. Watch out for embryos by him in this sale. They will be worth considering.

COMMENT: Warlord, another outstanding son of Adonis, owned by Joe Crowley. The National 2 year old hard antler champion at 381 IOA. He has huge long well-placed tynes and enormous tops. We are lucky to be able to use his exceptional genetics in our herd.

Charlie Mac

Photo taken at 5 years

Charlie Mac

COMMENT: Charlie Mac has two younger brothers who are knocking on the 500 IOA score proving the heritability of his breeding. He has very thick heavy antlers weighing in at 20.6kg last year. Remember here the amazing heritability of Lewis, his progeny are consistently spread throughout the industry, and back down to Brian. Impeccable genetics!! Charlie Mac was shot as a trophy at Foveran and officially measures 615 4/8 by two master measurers. This confirmed him as the former SCI World Record #1. His huge antler weight was the main drawcard for the hunter confirming that the demand for heavy beamed trophy antler is growing.

Comment: Woody was placed a close second in the National 3yr HA Competition last year and would have to be the highest scoring Woburn stag ever at 3 years old. The perfect match for Jamieson (Sire of Chancellor Peel 581 IOA) and Mountbatten (sire of Prince Philip 625 IOA @ 6yrs) and this will ensure great heritability from this mix.

Comment: A Chancellor Peel/ Amadeus spiker was offered as Lot 2 in this year's stag sale, a 14 pt spiker, and so we know this young spiker will impress. Chancellor Peel is also the sire of Commander Peel, Odysseus, Salvador, Samson and many other industry greats. We know that he is extremely heritable. A good match for Amadeus, sire of Sebastian, with his very long and wide antler structure. Amadeus has by far the largest antler structure in our master sire line up as you will see by the display in our trophy room at the sale.

Sale Day Wt:

Comment: Woody (Grandson of Herbrand) was placed a close 2nd in last year's National 3yr HA Competition, and with only 4 points in it, we couldn't resist some of these hot genetics. Hannibal shares his sire with Motdonis and so we know this line to be heritable. This makes him a good match for the double Chancellor Peel (sire of Odysseus, Salvador, Samson and Commander Peel) on the bottom line. We recommend this young sire.

Sale Day Wt:

Comment: Morpheus ,winner of National 3yr HA Competition 2010, is breaking all previous records with his 605 IOA at just 4yrs. With no more Scipio semen available, these are valuable trophy genetics to secure. Here we have matched him to Konrad, a heavyweight in both body and antler, and with the very heritable Chancellor Peel (Sire of Odysseus, Salvador, Samson, Commander Peel and many other industry greats) on both sides of the bottom line, this will be a highly regarded genetic mix.

Comment: Woody was placed a close second (just 4 inches in it!) in the National 3yr HA Competition last year. At 526 IOA at just 3yrs, he shows the Potential of this Pure Woburn mix and is well suited to high scoring Hector and the very heritable Lewis (dam sire of Prince Philip, 625 IOA @ 6yrs). You can expect high scoring and multi point antler as a result. Grand sire Herbrand (646 IOA) cements this as totally leading genetics.

Comment: Prince Philip's antler structure this year was truly impressive. At 625 IOA at just 6yrs, he has put on almost 80 inches this year. This makes him a worthy match for former World Record trophy sire Charlie Mac. With his 20.6kg HA and also Henry James' heritability for this trait (as can be seen with Henry VIII HA 18.6kg and 619 IOA @ 6yrs), this young stag will pass on both velvet and trophy antler genetics. A top English pedigree.

Sale Day Wt:

Comment: In typical Pure Schulte Wrede fashion, this young stag is off to a great start with a weaning weight of 74kg! His sire Sebastian also displays top bodyweight and with an impressive 27 point 2yr antler in a similar style to his sire Amadeus, this mix over Image makes for a good genetic mix with plenty of "wow" factor evident.

Chancellor Peel

Weaning Wt: 61Kg

Recent Wt: 76kg 5/5/11

Sale Day Wt:

Comment: Prince Philip's antler style, with very long bottom tyne's and multi point long tops, is ideally suited to Chancellor Peel's. There is exceptional heritability on both sides of this pedigree. Prince Philip is a full brother to Alan Stewart's Foveaux purchased at our 2007 stag sale. And Chancellor peel is the sire of Odysseus (634 IOA), Salvador (605 IOA) and many other industry greats, so we know that high scoring antler styles will be passed on to the progeny of this young hind.

Hannibal

Weaning Wt: 51Kg

Recent Wt: 62kg 5/5/11

Sale Day Wt:

Comment: Woody (Grandson of Herbrand) was placed a close 2nd in last year's National 3yr HA Competition, and with only 4 points in it, we couldn't resist some of these hot genetics. Hannibal shares his sire with Motdonis and so we know this line to be heritable. This makes him a good match for the double Chancellor Peel (sire of Odysseus, Salvador, Samson and Commander Peel) on the bottom line. We recommend this young hind.

Comment: An absolute star lot! Mentor at 435 IOA at just 2yrs has broken all previous records, confirming Odysseus' heritability and that of the Chancellor Peel line. Here we have matched him to Morpheus, National 3yr HA Champ and now at 603 IOA at just 4yrs of age, he too is breaking all records. Just imagine if this is a stag!! Exciting stuff and some of the hottest new genetics available. Don't miss this opportunity.

Comment: Highly desirable genetics here with Morpheus as the sire. At 603 IOA at just 4 years he is currently the World Record antler score for age. With 49 point antler, we felt he was a good match for Prince Philip at 625 IOA at 6yrs. Both sires have extremely long bottom tynes and tops. Former 2yr HA Champ Hannibal with his attractive high scoring antler style, on the bottom line can only add to this mix.

Comment: Very rare and valuable genetics here in this mix. Sire Huneric with his extremely long 35 point antler. He was the 2yr HA Champ in 2009 and currently the third largest 4yr head in the world. Over Scipio, and with no further semen available now in NZ, these genetics are becoming hard to find. An impressive stag in his own right, he is also the sire of Morpheus, confirming his heritability. And to top off all this we have high scoring industry great Herbrand on the bottom line. What great credentials this embryo comes with.

Comment: Current World record 4yr IOA Morpheus with a score of 603 over the mighty Zidarn. This is a mix that is quite unique we are sure and combines these two extremely high scoring sires and will combine beam length and multi point antlers. It is worth noting that Brusnik is also the sire of Huneric (570 IOA @ 4yrs) confirming his heritability and with a former 2yr HA Champ, Warlord on the bottom line, this makes for an attractive mix. The resultant progeny must surely impress.

Price:

Purchaser:

Comment: We couldn't think of a higher scoring mix than this one. Two of the highest scoring sires currently in the industry with Metallica at 679 and Zidarn at 653 IOA. Both of these sires come from very heritable lines. Adonis appears in the pedigree of so many industry greats that his reputation for heritability must be second to none. He is the sire of Spartacus, dam sire of Commander Peel, Scipio, Motdonis, Huneric, Hannibal and so the list goes on. Zidarn shares his sire with Huneric. Exceptional heritability to pass on to this progeny.

Commander Peel

Comment: Sire Prince Philip is a full brother to Alan Stewart's Foveaux and his sire, Mountbatten is one of our most heritable trophy antler sires. Here we have matched him to high scoring Commander Peel, former 2yr HA Champ, he comes from the very heritable Chancellor Peel line who is also the sire of Odysseus, Salvador and many other industry greats. Achilles on the bottom line, sire of Apollo, Discombe and Holy Oak to further cement this heritability. An impressive mix.

Price:

Purchaser:

Comment: Outstanding sire Amadeus with his top all round stats for both bodyweight and antler over the very heritable Brusnik (sire of Huneric). You may remember that Brusnik was also the sire of Lot 11 at this year's stag sale, a 2yr old weighing 218kg and sporting a 32 point antler. Salvador, former 2yr HA Champ comes from the very heritable Chancellor Peel line. As you know Chancellor Peel also sired Commander Peel, Odysseus, and many other industry greats. Excellent bodyweight, antler and heritability throughout this mix.

Comment: Brusnik is the sire of Huneric (570 IOA @ 3yrs & former 2yr HA Champ). He also sired some of our most impressive stags at this year's tag sale. Most notable was lot 11, a 2yr old weighing 218kg with a 32 point antler confirming his heritability and performance in our herd. Here we have matched him to some fresh genetics for us with Broadband 552 IOA & 62" spread. He comes from the very heritable Chancellor Peel line that also produced Odysseus, Salvador and many other industry greats. Exceptional heritability in this mix.

Price:

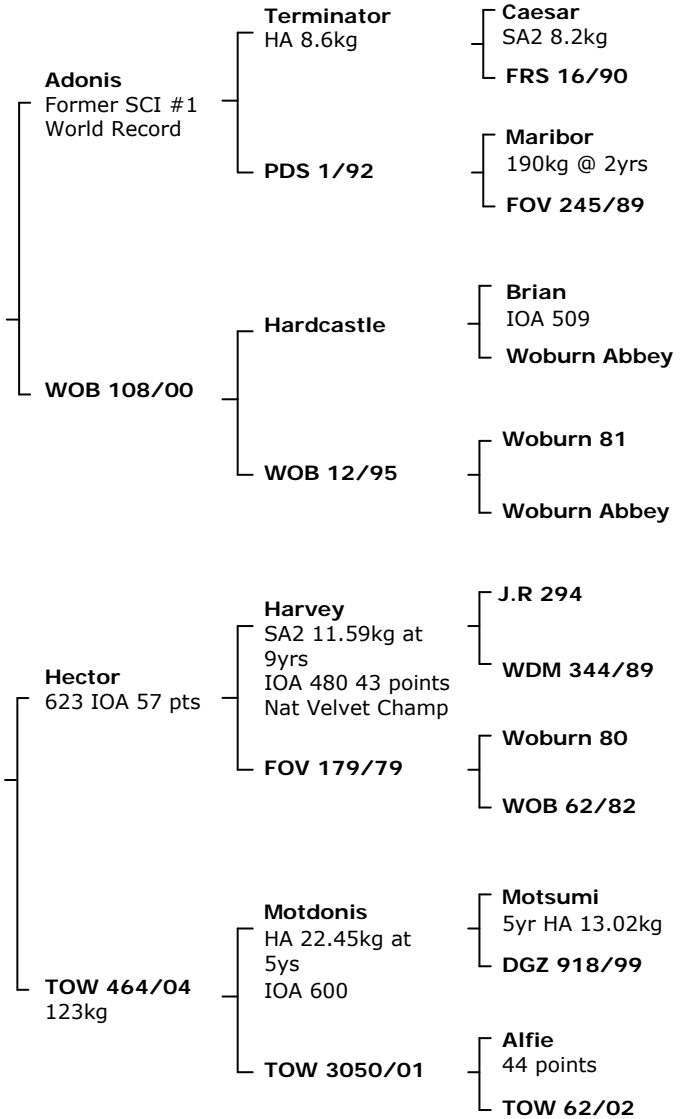

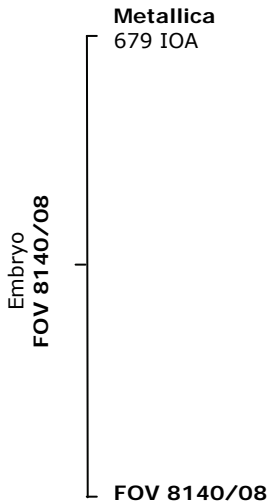

Purchaser:

Comment: Amadeus at 318kg and 605 IOA at just 6years is truly impressive. His antler structure is huge with very long front tynes and big open tops. He certainly has the wow factor! Here we have matched him with the extremely big and long Zidarn. At 653 IOA he is one of the biggest antlered stags in the industry. He is complemented nicely on the bottom line with King, sire of World Record spread sire Kingswood. Imagine the antler dimensions of this progeny if it is a stag!

Price:

Purchaser:

Comment: Metallica is one of the biggest antlered stags in the industry at 679 IOA. He shares his sire with Spartacus and Warlord and so we know the heritability of this line. Here we have matched him to high scoring multi pointed Hector (623 IOA & 57 points) full brother of Kane, backed up by National velvet Champ Harvey. These top velvet stats are complemented with heavyweight Motdonis (HA 22.45kg & 600 IOA). Great dual purpose genetics for both velvet and trophy antler.

Comment: We have introduced Broadband into our breeding programme this year. He has extremely long front tynes and tops and an impressive 62" spread. He is sired by the very heritable Chancellor Peel who is also the sire of Odysseus, Salvador, Commander Peel and many other industry greats. A good match for Prince Philip's long antler structure, both in the bottom tynes and tops. He is a full brother to Foveaux. Excellent heritability is obvious in this mix.

Comment: World Record 4yr Morpheus at 603 IOA and 49 points over Prince Philip who had the highest 3yr IOA score for 2008. Both of these sires have strong multi point antler with long bottom tynes and tops that will complement one another well. Here we have the added advantage of heavy bodied Easterns on both sides of the pedigree making this an excellent all round mix. We will be watching this progeny with interest.

Comment: Prince Philip at 6yrs is an impressive master sire at 625 IOA. His long bottom tyne and tops really catch the eye. He is a full brother to Foveaux confirming the heritability of the top line. Dam 6285 is the mother of lot 11 in this year's stag sale. A 2yr old by Brusnik weighing 218kg and 32 point antler confirming her place in our elite breeding programme.

Comment: Austin is the current National Velvet Champ and he has won this title at least 3 times. At 14.7kg SA2 velvet we had to include him in our breeding programme this year. Here we have matched him to Mountbatten (sire of Prince Philip (625 IOA) and Foveaux), one of our most heritable trophy antler sires, and then down to the heavy beamed Henry James who shares his sire with the great William John. An interesting mix and we look forward to seeing the results.

Comment: Kingswood's World record 78" spread impressed us so much that we decided to use him in our breeding programme this year. His antler style is well matched to Amadeus, and Dave Mackie has done well at the Rising Stars Antler Competition with this mix. Here we have mated him to a full sister to Amadeus which will cement these two spectacular antler styles in this mix. Could this result in a new world record spread?

Comment: A top Schulte Wrede pedigree featuring a number of great German sires. High scoring Image with his eye catching desirable trophy antler over Munich and down to the very impressive Amadeus (318kg 605 IOA @ 6yrs). Heavy weighted Red Baron and the very heritable Wredeson (Sire of Wredeson Major, 338kg HA 15.52kg) on the bottom line should not be overlooked. The progeny of this hind will have both bodyweight and antler genetics.

Comment: Highly regarded genetics here in this pedigree with a full sister used as a donor in this year's ET programme. Remember Apollo is a full brother to Discombe (2yr HA Champ) and Holy Oak (3yr HA Champ) and together they were placed in the top 5 of the 3yr HA competition in 2009. High scoring Salvador (605 IOA), one of many industry greats from the Chancellor Peel line including Broadband, Commander Peel & Odysseus. Former SCI #1 Tamar on the bottom line. A mating to Fov Windsor (535 IOA at just 4yrs) must surely mean the progeny of this hind will be highly sought after.

Comment: Be in at the ground floor with this progeny of Spartacus. We have used him over some of our best hinds this year to incorporate his 48" main beam into our genetic base. Here he is mated to a full sister to one of this year's donor hinds. A Hannibal daughter over Warlord combining these two sires' impressive antler structure. Both stags have long tynes with exceptional tops and make a great match for Spartacus. Just imagine if this progeny is a stag!

Comment: This pedigree is all about trying to capture the "wow" factor for antler structure. Image displays this extremely well and what better to match him to than a daughter of high scoring and heavy Amadeus (605 IOA, 318kg) with his very long wide antler, strong and long tined tops. Don't overlook Awesome on the bottom line—proven heritability as seen in Moccona and Awesome too. We look forward to the results.

Comment: Top scoring trophy antler and exceptional heritability are the features of this pedigree. Jamieson is the sire of Chancellor Peel (581 IOA) and also Scipio (500+ IOA @ 4yrs). Mountbatten is the sire of Prince Philip (625 IOA @ 6yrs) and Foveaux. Both sires are extremely heritable and have produced sires with exceptionally high scoring antlers. Mated to Prince Philip adds yet more of this long tynded, high scoring eye-catching antler. Let's hope this hind has a stag fawn.

Comment: Sire Hannibal has a long strong correct antler formation which has the "wow" factor. He shares his sire with Motdonis (600 IOA) and so we know this to be a very heritable line. Brusnik, sire of Huneric, was taken as a trophy at just 6yrs with a score of 520. He was also the sire to lot 11 in this year's stag sale, a 2yr old weighing 218kg and with 32 points. Mated to Metallica, at 679 IOA he must be one of the highest scoring sires in the industry. He also shares his sire with Warlord and Spartacus and so we know this line is also very heritable. This hind is well worth considering as she will be a good investment for the future.

Price:

Purchaser:

Comment: High scoring Hector, sire of Astynax who was placed third in last year's 1yr HA Competition. Over Lewis, dam sire of Prince Philip and sire of Charlie Mac and back to Russell, sire of Herbrand, will make this hind highly sought after. What better to match to this high scoring antler pedigree than Prince Philip with his very long bottom tynes and tops (625 IOA). What a line of top performing sires.

Henry James

Comment: Henry James held the record for 2yr HH until it was beaten by one of his sons. Also look to Henry VIII's 18.6kg antler to further prove his heritability for this trait. A worthy match for the might of Hotspur at 23.4kg HA and also Clive 22.2kg on the bottom line. This mating to Prince Philip will match his multi point antler structure to these heavy beamed antler genetics and will make for excellent dual purpose progeny.

Brusnik
IOA 520 @ 6yrs

PFE 35/97

Comment: Hannibal has a very attractive antler style. We know this line to be heritable as he shares his sire with Motdonis (600 IOA). Mr Peel on the bottom line is a full brother to Chancellor Peel and down to Brusnik (sire of Huneric) makes this hind very worthy of consideration. This heritability and top performing pedigree will surely be enhanced by the mating to Prince Philip with his high scoring long tynded antler.

SBP 41/94

Comment: Great dual purpose genetics here for both velvet and trophy antler. Heavyweight Charlie Mac (former World Record SCI # 1 and 20.6kg HA) is the sire of this hind over Henry James who has a proven reputation for producing heavy antlered stags—a good example of this is Henry VIII (HA 18.6kg). Mated to Prince Philip to match this high scoring heavy antler with his 625 IOA of eye catching antler structure will further enhance this mix.

Adonis
Former SCI # 1
DGZ 806/00

Comment: This mix is well worth considering for top all round genetics. Sire of this hind is high scoring Prince Philip and her bottom line goes back to heavyweight Maximillian. Don't discount the power of Adonis (sire of Warlord, Metallica and Spartacus) on the bottom line. Mated to Apollo to enhance this heritability. He is a full brother to Discombe (Nat 2yr HA Champ) and Holy oak (Nat 3yr HA Champ) and together they were placed in the top 5 of the 2009 3yr Ha Competition at the Rising Stars Competition emphasizing the heritability of the top line of this pedigree.

Comment: Look at the heritability in this mix. Salvador son of Chancellor Peel who is also the sire of Broadband, Odysseus, and Commander Peel. Mr Peel is a full brother to Chancellor Peel and also shares his sire with Scipio. Mated to Apollo, full brother to Discombe (Nat 2yr HA Champ) and Holy Oak (Nat 3yr HA Champ). What potent stats to pass on to this progeny.

Comment: Salvador, son of Chancellor Peel who is also the sire of Broadband, Odysseus, and Commander Peel. Over high scoring Cameron at 556 IOA must surely mean this hind is already packed with top antler genetics and heritability. Mated to Apollo, full brother to Discombe (Nat 2yr HA Champ) and Holy Oak (Nat 3yr HA Champ), this can only enhance this mix.

Comment: Former World Record SCI trophy stag Tamar, who also shares his sire with Hotspur. Over high scoring Herbrand who was one of the highest scoring sires in the industry. This mating to Midas, son of Warlord and back to Adonis, another Former SCI World Record. Top performing antler stats and the progeny of this hind will certainly have the "wow" factor.

Group Lots

NOTE: The following hinds are all our original stud hinds that have been mated to our top master sires. They are all from imported bloodlines and are all proven producers and have survived our ruthless culling programmes. The 18m hinds are from proven genetic combinations. They are being sold due to our increasing stock numbers and our properties now being fully stocked. Their progeny have excellent genetic potential and so will represent good value for money. Please note that the first digit of the hind tag number is the year she is born. Full pedigrees are available on request or view them on our website www.foveranddeerpark.co.nz and will be available on sale day.
