# Conditions of Sale

## Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8kms from Kurow (will be signposted).

## Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 12pm.

## DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding). All stock sold are DNA guaranteed.

## Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

## Vetted In-Calf Hinds

All adult hinds have been ultrasound pregnancy tested using a real time ultrasound scanner. Only confirmed pregnant hinds have been included in the sale. All testing was carried out by Dr Noel Beatson from Rural Vet Services, Timaru.

## TB Status

Our herd status continues to be a C10 classification.

## Conditions of Sale

The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

## Conditions of Sale cont./ Guarantee

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.

The sale is conducted exclusive of GST.

A buyers commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of the respective stud.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

# Foreword

## Dear Clients and Friends,

Welcome to our 34th Annual Elite Hind and Weaner Sale.

This year we have done an ET program again and had a very successful AI program. We have taken the opportunity to include some high ranking industry sires in our breeding programmes this year and we also have a few rising stars of our own for the first time, so there is plenty of variety on offer in this sale.

Unfortunately, due to a timing issue at the lab we are not able to offer you any hinds with sexed semen this year but it is our intention to resume with this again next year. However, the progeny on offer will not only produce some future sire stags but also some great breeding hinds as well.

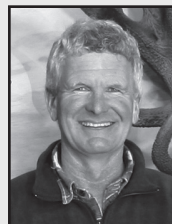

The hinds on offer are what we consider to be genuine capital stock and so for this reason they will come with reserve pricing. We believe they will give you significant gains in both antlers and bodyweight. It is worth remembering that genetic progress is not only about purchasing a good stag for mating. We have learnt over the years that this is only half of the story. Progress is much quicker if the hinds he is mated to are genetically superior as well. To this end we recommend these hinds on offer to you. There is strong heritability documented in all of the hinds on offer and we are confident that this will pass on to their progeny as well.

It is, as always, our pleasure to share these genetics with you and we wish you well with your purchases. Please continue to give us feedback regarding their progress.

Kind regards,

Barry Gard  
Deer Stud Manager  
Foveran Deer Park

# Mission Statement

## **Our motto    Breeding the difference**

a term that best describes our intention for our deer stud at Foveran.

*By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.*

**DBVs**    Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

**Velvet**    By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

**Trophy**    The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long tined heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

**Temperament**    We continually manage and evaluate the herd for this important trait.

**COMMENT:** Cane has been bred here at Foveran. A son of the very heritable McCaw who has produced us so many top stags in previous sales. At 504 5/8 IOA, Cane was placed 4th in the National 2yr HA competition this year. His antler structure is huge for a 2yr old. It is interesting to note that he had the longest main beam of all the stags in the National 2yr competition. We expect Cane to be one to watch in the future.

**COMMENT:** Orlando played a big part in our breeding programme this year and will continue to do so going forward. At 668 IOA this year, Orlando is still bigger than his sire Nixon at the same age. Note Nixon then jumped to 810 IOA as a 5yr old and so we are wondering what may happen next year! Orlando has transitioned well at Foveran and continues to impress us with his hugely heavy head of antler and impressive bodyweight.

**COMMENT:** McCaw has a solid reputation now for producing some excellent sons as we have seen offered in our past sales. He is also the sire of our new sire Cane (504 IOA at just 2yrs) who we expect to feature heavily in future breeding programmes. We expect McCaw to be well over 700 IOA this year which puts him amongst some of the top sires in the industry.

**COMMENT:** Bred here at the stud, his sire Henry VIII has a sound reputation for leaving heavy beamed sons. Fitzroy's dam 9119 is a full sister to Prince Philip who was the SCI World Record sire for 2012. Her dam sire Lewis is also the sire of former SCI World Record sire Charlie Mac and Legend. Fitzroy is improving his IOA score by approx. 100 inches per year and so we are expecting impressive scores from him at maturity.

**COMMENT:** Gregor grew his best head to date this year and he was taken as a trophy at 684 IOA. Consequently we only have his 5yr old head to display as his 6yr antler was damaged. He was the sire of Lot 15 sold at last years stag sale for \$45,000 and went on to be placed 3rd in the National 2yr HA competition. A very heritable sire who has left a huge legacy in our herd.

**COMMENT:** Sired by Fig Jam who has been scored in excess of 800 IOA and with an antler structure typical of his breeding, Munro has an antler structure with the “wow” factor. His dam sire Discombe was a National 2yr HA Champ. He matured at 652 SCI with a 62 inch spread which looks to have been inherited by this young sire. Munro has been used in our breeding programme for the first time this year so this sale represents a chance to secure these latest genetics and have his progeny on the ground later in the coming months.

He is a son of Davidson and when comparing the mature photo of Davidson to that of Walter it is easy to see a similarity in antler structure and to imagine he may well follow in his father's footsteps. We have mated Walter to some extremely well bred young hinds so that we can best evaluate him as a sire. A small selection have been offered in this sale.

**COMMENT:** Purchased from Westbush Deer Stud, Henry VIII is a son of our own Henry James. He has an impressive heavy set of antlers typical of many of Henry James' sons. He was the most impressive 3yr old sire offered the year we purchased him. We were so impressed with him we couldn't resist purchasing these genetics back for our own herd. He is a major player in our breeding programme and at 619 IOA at just 6yrs, the offering in this catalogue represents a great opportunity to secure some progeny from this future industry great.

**COMMENT:** Amadeus, truly the most amazing 2yr stag ever produced. His record breaking huge, wide expansive and heavy beamed head of 31 points and 427 IOA, with a huge bodyweight of 260kg at just 3yrs is unbelievable. His exceptional 7yr antler takes pride of place in our trophy room. At 634 IOA he really does have the "wow" factor. The Wrede bloodlines are proven with such sires as Wredeson, Wredeson II, Wredeson Major, and now Amadeus. Amadeus is the sire of Sebastian (sire of Vicktor). With good semen stocks he will continue to be part of our breeding programme.

**COMMENT:** Infinity was bred here at the stud, was sold to Wilkins Farming and is now owned by Malcolm Cane. He has an impressive head with huge bottom tynes. We have used him in our AI programme this year over hinds with high scoring trophy genetics in their pedigrees.

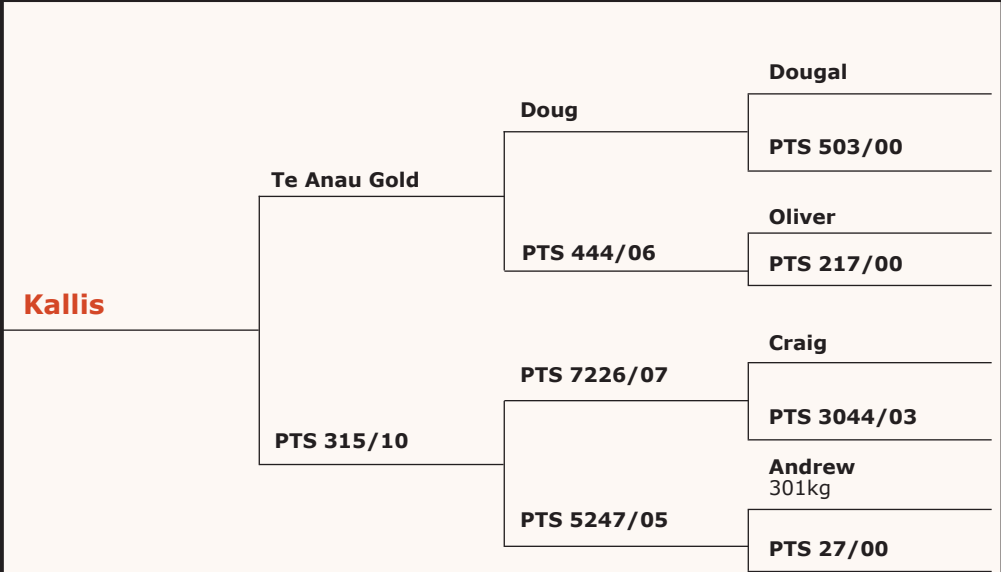

# Kallis

Owned by Chris Petersen

Kallis

**COMMENT:** What caught our eye about Kallis was his progeny performance results. In 2015, 2016 and this year, he has featured strongly in the sire of three categories at the Rising Stars competition. Kallis was also the sire of the winner of the 2015 National 2yr HA competition at the Rising Stars. It is due to this consistency that we have decided to use him over selected hinds in our breeding programme this year and we look forward to seeing the resultant progeny.

**Comment:** Top all rounder Amadeus is the sire of this young hind. At 634 IOA and 322kg bodyweight, he was what we all want in a sire stag. Dam sire Brusnik is also the sire of Nixon, Huneric and Zidarn. Vetted in calf to our new master sire Cane, placed 4th in the National 2yr Ha competition at the Rising Stars. At 504 IOA at just 2yrs, he is going to be one to watch in the future. A rare opportunity with only a few mating's offered in this sale.

**PFE 35/97**

**Comment:** Sire Gregor at 684 IOA this year was impressive. He was the sire of Lot 15 and sold for \$45,000 at last year's stag sale. Note too Jamieson, sire of Chancellor Peel and Scipio, and Brusnik, sire of Nixon, Huneric and Zidarn on the bottom line of this hind's pedigree. Vetted in calf to the heavy beamed Alexander who exceeded 24kg hard antler this year. The resultant progeny will impress.

**Comment:** Sire Henry VIII is the sire of Fitzroy (664 IOA @ 5yrs) proving the heritability of this hind's sire line. Dam sire Hannibal was a National 2yr HA champion. Note too Lewis on the bottom line is the dam sire of Prince Philip, a former SCI World Record #1. Vetted in calf to the impressive Orlando who was placed 3rd in the National 3yr HA competition. He is going from strength to strength now at 668 IOA at just 4yrs, he is going to be one to watch.

Fitzroy

**Comment:** Sire Fitzroy at 664 IOA at just 5yrs has put on 100 inches of antler each year since he was a 3yr old. We expect him to be a very high scorer at maturity. Dam sire Lord Haka (721 IOA @ 5yrs) will further promote this antler growth in this hind's pedigree. Vetted in calf to new sire Walter selected for his pedigree. Compare Walter's photo with that of Davidson and you can see a similar antler structure which could well develop into a head similar to that of his father.

**Comment:** Sire McCaw has proved very heritable in our herd. You only have to look at past stag sale catalogues to confirm this. He is also the sire of our new master sire Cane (504 IOA @ 2yrs, placed 4th in the National 2yr HA competition this year). Dam sire Amadeus is one of the great all rounders for both bodyweight and antler. Both of these big and wide antler structures in the hind pedigree will combine well with that of new sire Munro. A great progeny pedigree for "wow" factor antler genetics.
