Conditions of Sale

Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8kms from Kurow (will be signposted).

Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 12pm.

DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding). All stock sold are DNA guaranteed.

Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

Vetted In-Calf Hinds

All adult hinds have been ultrasound pregnancy tested using a real time ultrasound scanner. Only confirmed pregnant hinds have been included in the sale. All testing was carried out by Dr Noel Beatson from Rural Vet Services, Timaru.

TB Status

Our herd status continues to be a C10 classification.

Conditions of Sale

The sale will be conducted by Rural Livestock Ltd with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Conditions of Sale cont./ Guarantee

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.

The sale is conducted exclusive of GST.

A buyers commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of the respective stud.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

Foreword

Dear Clients and Friends,

Welcome to our 35th annual Elite Hind & Weaner sale.

With velvet prices still stable and with venison at an all time high, the deer industry's future is looking very positive! With that in mind we are offering genuine capital stock hinds which include some of our latest genetic combinations which we hope you will consider for your herd. All of the matings in the catalogue have been chosen to give us the best possible replacement progeny whether it be a hind or stag fawn.

The sexed semen matings have been done as we would like stag progeny from these highly respected hinds and we are also excited about the likely resultant progeny from all of the matings in this catalogue.

Sadly we can't keep them all due to our carrying capacity restraints and the all important cashflow. Our loss is your gain.

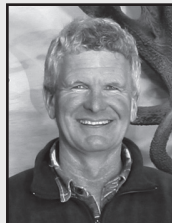

As always the progeny is guaranteed. If you are not completely satisfied, we offer a replacement or a credit at a future sale whichever you prefer. So you can buy with confidence. All embryos are guaranteed live fawn on the ground.

We wish you all the best with your purchases and look forward to catching up at the sale.

Kind regards,

Barry Gard
Deer Stud Manager
Foveran Deer Park

Mission Statement

Our motto Breeding the difference

a term that best describes our intention for our deer stud at Foveran.

By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.

DBVs Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

Velvet By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

Trophy The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long timed heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

Temperament We continually manage and evaluate the herd for this important trait.

Cane

Age	Antler	IOA
2	HA 11.78kg	504 5/8 IOA
3	HA 15.5kg	641 IOA

COMMENT: Cane has been bred here at Foveran. A son of the very heritable McCaw who has produced us so many top stags in previous sales. At 504 5/8 IOA, Cane was placed 4th in the National 2yr HA Competition and this year as a 3yr old he was placed 3rd in the 3yr section. His mass of antler is impressive and we expect him to continue to improve with age.

4	300+kg	HA 23.6kg	668
5	300+kg	HA 22.88kg	712 6/8

COMMENT: Orlando played a big part in our breeding programme this year and will continue to do so going forward. At 668 IOA at 4yrs, Orlando was bigger than his sire Nixon at the same age. This year, his antler structure has started to tidy up and scored an impressive 712 6/8. At 5yrs, Orlando continues to impress us with his hugely heavy antler and impressive bodyweight.

6		17.02kg 60pts 601 IOA
7	300+kg	20.37kg 692 IOA

COMMENT: McCaw has a solid reputation now for producing some excellent sons as we have seen offered in our past sales. He is also the sire of our new sire Cane (504 IOA at just 2yrs) who we expect to feature heavily in future breeding programmes. McCaw was sold this year as an 8yr old to Mt Cecil for \$50,000. Unfortunately his antler didn't finish properly but we both expect him to recover fully this coming season.

4	HA 51pts	552
5	HA 21.93kg	664 5/8
6	HA 23.28kg	690 2/8

COMMENT: Bred here at the stud, his sire Henry VIII has a sound reputation for leaving heavy beamed sons. Fitzroy's dam 9119 is a full sister to Prince Philip who was the SCI World Record sire for 2012. Her dam sire Lewis is also the sire of former SCI World Record sire Charlie Mac and Legend. Fitzroy continues to impress us with his antler weight and IOA score at just 6yrs.

5	253kg	HA 20.05kg	605 IOA 53pts
6		Damaged	
7			684 IOA

COMMENT: Gregor grew his best head to date this year and he was taken as a trophy at 684 IOA. Consequently we only have his 5yr old head to display as his 6yr antler was damaged. He was the sire of Lot 15 sold at last year's stag sale for \$45,000 and went on to be placed 3rd in the National 2yr HA competition. A very heritable sire who has left a huge legacy in our herd.

Age	Antler	IOA
3		515
4	Damaged	

COMMENT: Sired by Fig Jam who has been scored in excess of 800 IOA and with an antler structure typical of his breeding, Munro has an antler structure with the “wow” factor. His dam sire Discombe was a National 2yr HA Champ. He matured at 652 SCI with a 62 inch spread which looks to have been inherited by this young sire. Unfortunately Munro’s antler was damaged by wire this year and had to be removed prior to finishing. He was shaping up to be impressive and so we have continued to use him in our breeding programme this year.

3	56 points	635
4	damaged	
5		640

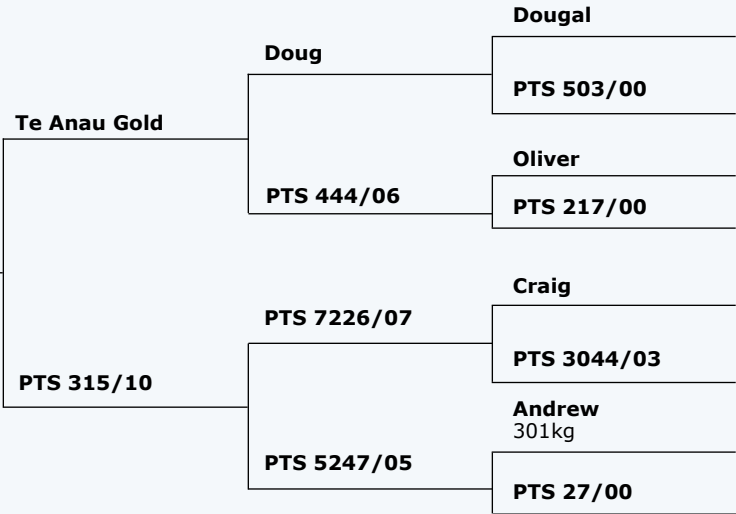

COMMENT: Adidas was purchased in 2015 by Sam Cane for \$90,000 and was one of the most impressive stags offered at Cane’s sale. Adidas won the National 3yr HA competition at the Rising Stars and was also awarded the Supreme Trophy award. Unfortunately, his 4yr old antler was damaged. Malcolm advises it looked bigger than his 3yr old antler but was not able to be scored. Now at 5 years at 640 IOA, Adidas has recovered well.

Kallis

Owned by Chris Petersen

Kallis

Age	Antler	IOA
4	44 points, 28kg antler	4yr 575 IOA

COMMENT: What caught our eye about Kallis was his progeny performance results. In 2015, 2016 and 2017, he has featured strongly in the sire of three categories at the Rising Stars competition. Kallis was also the sire of the winner of the 2015 National 2yr HA competition at the Rising Stars. It is due to this consistency that we have decided to use him over selected hinds in our breeding programme this year and we look forward to seeing the resultant progeny.

Former SCI # 1

FOV 7039/07

Comment: Davidson was one of the first stags to break the 700 IOA mark. Dam sire Morpheus was a National 3yr HA Champion. Malson on the top line is "new blood" for us. He had 55 points of antler at 3yrs and is now an impressive 630 IOA at just 4 years.

Amadeus

Comment: Amadeus was a great all round stag for both bodyweight and stylish antler. Dam sire Odysseus is the sire of McCaw who is the sire of Cane (641 IOA @ 3yrs). An impressive record for heritability. Adidas at 640 IOA is impressive. He was a National 3yr HA Champion and the son of Matthew which will only add to the eye catching wow factor antler genetics in this pedigree.

Hinds

Mated with Sexed Semen

Hinds mated using sexed male semen. To date our results have been that in excess of 95% of these fawns are male. From our point of view hind fawns would also be desirable from these matings. However if you purchase a hind specifically for her stag fawn and she has a hind fawn, we are happy to replace it with a stag fawn of similar breeding.

Comment: McCaw over Amadeus, hind 5418 is packed with stylish trophy antler genetics. Vetted in calf to new sire Munro. The Fig Jam / Discombe combination in this pedigree matches that of the dam. Sadly Munro damaged his velvet on wire this year and so his head had to be removed before finishing. He has a fantastic style typical of Fig Jam and we expect his antler later this year to be stunning.

Comment: Orlando is an outstanding Nixon son. He shares his sire with Apex - both sires exceed 700 IOA, and confirm the heritability of Nixon. This is one of the first in-calf daughters of Orlando we have offered. Vetted in calf to new super sire Cane. At 641 IOA at just 3 years, he was placed 3rd in the National 3yr HA Competition this year. A fantastic combination well worth considering.

Comment: Sire Fitzroy at 690 IOA and 23.28kg HA continues to impress us. Gregor at 684 IOA was taken as a trophy at 7 years. His heavy 20kg antler is well matched to that of Fitzroy. Vetted in calf to Munro whose antler structure has been inherited from Fig Jam. Sorry no 4 year antler stats due to damage but we know his 5 year antler will be impressive. An excellent opportunity to secure progeny of this promising young sire.

Comment: Gregor was 684 IOA at 7 years. His hugely multi pointed 20.05kg of antler at just 5yrs was impressive and his 7 year antler would have easily exceeded that. Dam sire Amadeus was a top all round stag for both bodyweight and antler. These sires will have packed this young hind with eye catching antler genetics. Vetted in calf to Munro who has inherited Fig Jam's antler structure will ensure impressive progeny especially if it's a stag fawn.

Lord Haka

Comment: Sire Lord Haka was an exceptional 2yr old for both bodyweight and antler. He went on to grow a 721 IOA at just 5 years. Dam sire Brusnik is the sire of Nixon, Huneric, Zidarn and Brusnis to name a few. Note too a very respected hind on the bottom line. 6285 was one of our top trophy dams. She has produced many top 2yr olds at our stag sales. Vetted in calf to new super sire Cane to give the progeny of this hind some of our best genetics.

Broadband

Comment: Sire Broadband's long and wide antler structure over industry heavyweight Maximillian has produced this big quiet hind. Vetted in calf to Orlando an impressive Nixon son. He also has a huge body frame. His heavy high scoring antler, a testament to the heritability of Nixon who is also the sire of Apex (708 IOA @ 5yrs). An exceptionally heritable sire line for the progeny of this mix.

Pure English r 5yr Hind Vetted in calf to Orlando
